<b>5. Delivery Group target NI30 - Reduce re-offending rate of adult PPOs measured by arrests recorded on Police National Computer) from base line of 71% for 06/07 cohort.</b>			30%	To be agreed	To be agreed

<sup>2</sup> 06/07 Target was 50% - some of 06/07 cohort had been on PPO Scheme for 2 years – this increased the rate across the cohort and led to unusually high figures. JTrack will record details of all PPOs indefinitely from now on. We will therefore be able to measure re offending rates over longer periods
